

AniTracker App

By:Shivam, Roshan, Vedant

- Track, discover, and manage your anime experience

Problem

- Anime fans struggle to organize shows, track progress, and discover new content efficiently

Solution

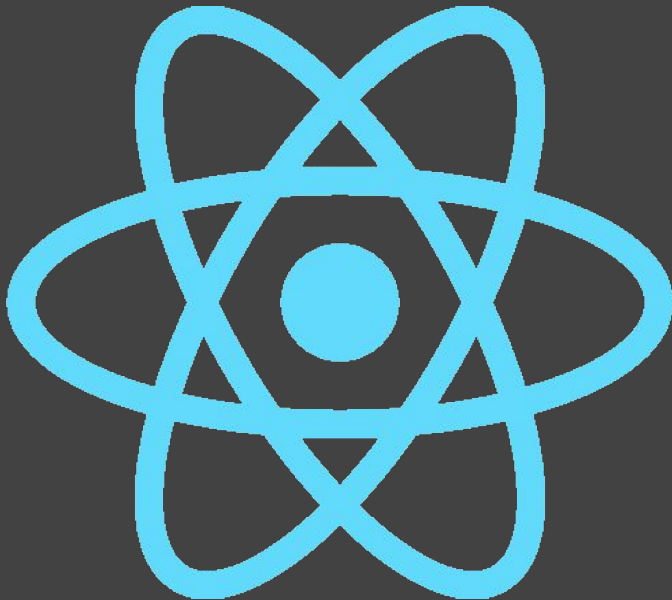

- AniTracker provides a centralized platform to track episodes, rate shows, and get recommendations

Key Features

- • Track episodes
- • Watchlist management
- • Ratings & reviews
- • Personalized recommendations

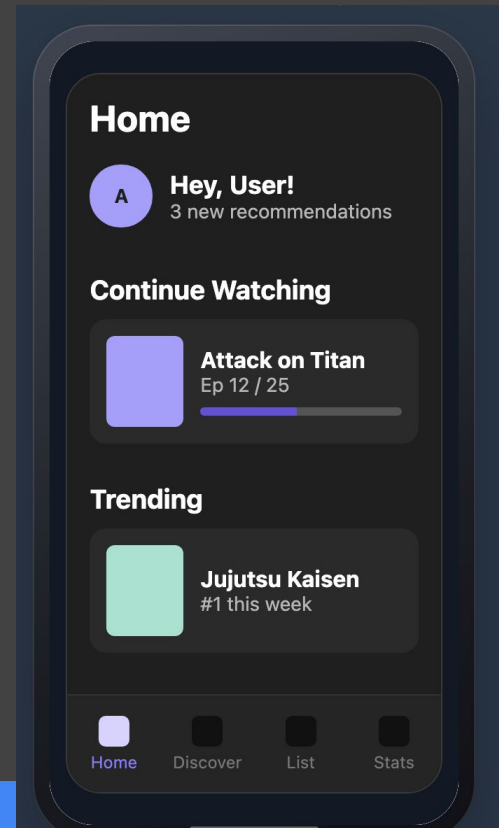

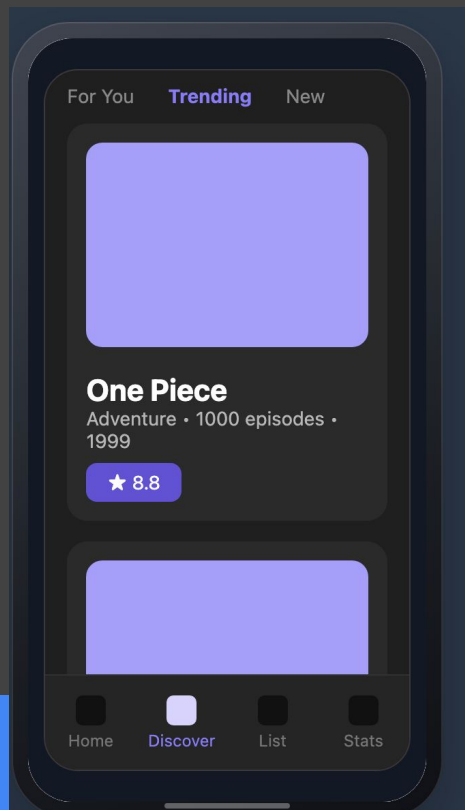

Technology Used

- Built using React Native, API integration for anime data, and cloud storage

User Interface

- Clean, intuitive UI designed for fast navigation and easy tracking

Target Audience

- Anime fans, casual viewers, and binge-watchers

Future Improvements

- • Social features
- • AI recommendations
- • Offline tracking

Conclusion

- AniTracker simplifies anime tracking and enhances the viewing experience
